

“What an event ! Having all the strands in one hall was definitely a positive experience and a showcase ... another reason why should all the strands work together for equality.”

Final Evaluation Summary 2009

The North East VCS

Equalities Coalition

What has the CADE project achieved?...

The CADE project is part of the development of the North East Voluntary and Community Sector (VCS) Equalities Coalition. It received £769,716.00 through One NorthEast's Single Programme funding, from 2006 – 2009.

This is a short summary of the final independent Vision Sense evaluation report for the CADE project. We want to share what has worked with funders, the Coalition, its members and other projects.

The project aimed to work closely with people at risk of exclusion through discrimination and with the community groups that work with older people, young people, people from Black and Minority Ethnic communities, disabled people, lesbian, gay, bisexual, trans gender people and people of different faith groups. It wanted to build their capacity and provide a focus to promote equality in the region.

The Coalition delivered 145 events over three years and 668 evaluations were received from participants. Thank you to those people who took part; your views are really valuable.
