

LIBRARY SUPPORT FOR OPEN RESEARCH

**Northumbria
University**
NEWCASTLE

**How the University
Library can support
you to make your work
more open...**

openaccess@northumbria.ac.uk

<https://library.northumbria.ac.uk/open-access>

@NUOpenResearch

Open your publications

Share your work openly through Pure, take advantage of our agreements with publishers to reduce or remove fees associated with Open Access

Open your data

Share your data using Figshare, the University's Data repository, learn about data management plans and create your own using DMPonline

Improve your research profile

Set up your ORCID profile, claim your Scopus ID, make your researcher identity

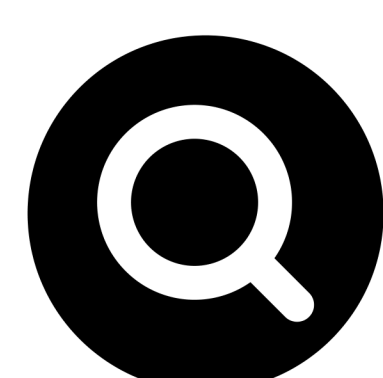

Learn Open Research Methods

Through our Researcher Development Programme, regular sessions on using Pure, and Open Research events

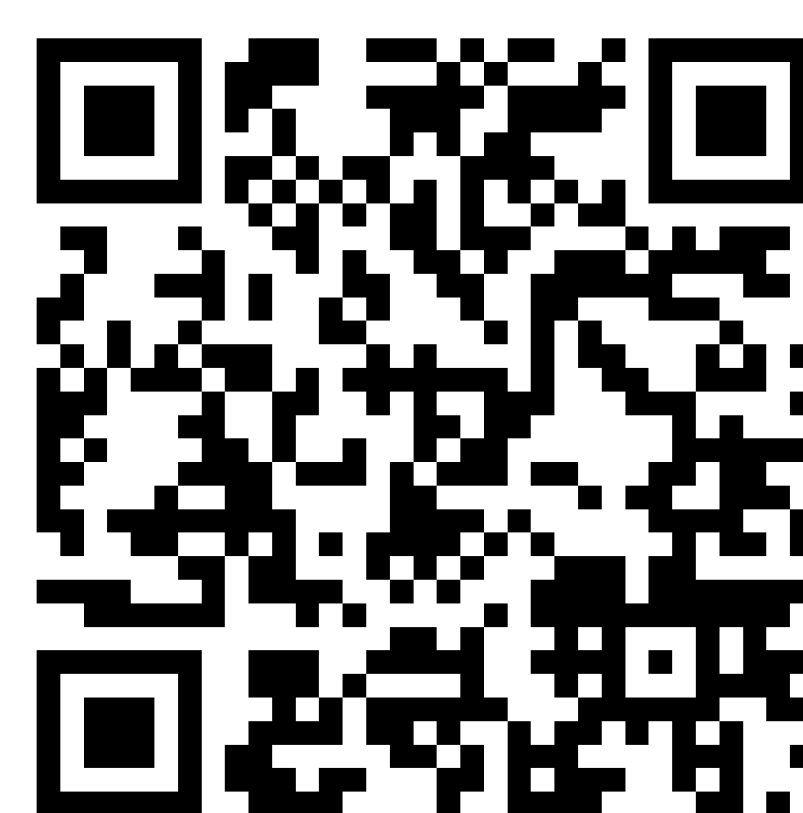

WHERE TO START...

SciFree

Search for journals included in our existing publisher agreements. Search by title, subject or publisher.

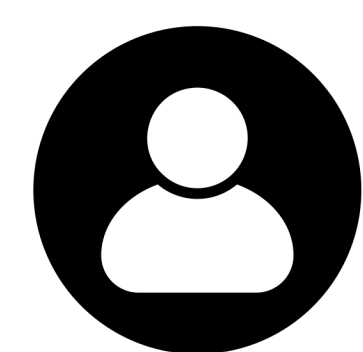

Northumbria Journals

Read our research or host a title on our Open Access journal publishing platform.

ORCID

Register for an ORCID and complete your profile. Link your profile to Pure and import your research outputs.

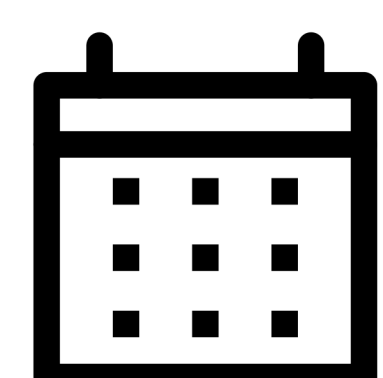

**REF, UKRI and funder
compliance**

Get help with Open Access compliance for REF and your funded research.

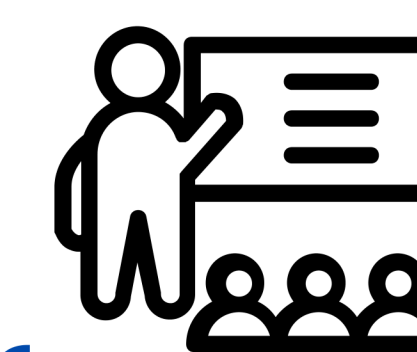

**Open Research
events calendar**

Check our Open Research calendar to find up coming events on open practice with expert speakers.

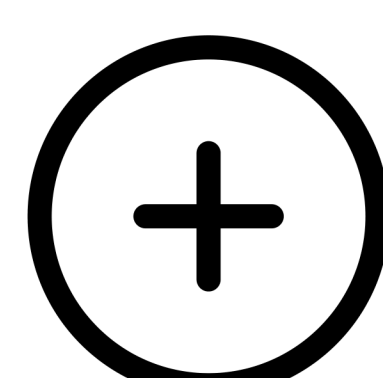

**Library research
development calendar**

Find our research development and support sessions, or get in touch to book a Library speaker for your event.

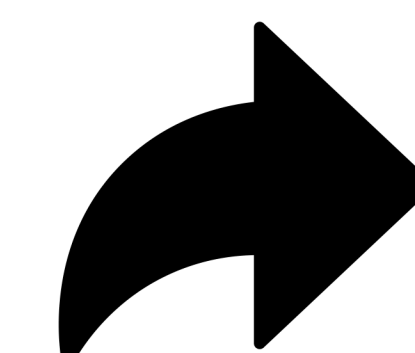

Pure

Manage your research outputs and activities, import records, deposit your Accepted Author Manuscript.

figshare

Upload and share your research data to Northumbria's Figshare in any format, get a citable DOI, and usage metrics.
